DEATHS AT HOPKINS

JACOB WEAVER AND JAMES H. M'GEE DIED SATURDAY.

FUNERALS HELD SUNDAY

McGee, a Resident of Hopkins Thirty Years, Had Lived the Life of a Recluse.

The funeral services of Jacob Weaver, who died at his home, in South Hopkins, Saturday morning at 3 o'clock, were held at the residence Sunday afternoon at 2:30, Rev. Griffith of the Baptist church officiating.

Mr. Weaver, or Jake, as he was known to all his friends, has been sick for the past two months. Part of the time his sufferings, brought on by a complication of diseases, have been intense, but have always been borne by that same cheerful spirit which has characterized him through life.

A laboring man in the humble walks of life, his cheerful words and kind deeds won for him a host of friends. For years, or as long as he was able to do the work, he was sent for to care and nurse the sick, and that this was appreciated was shown by the kindness of neighbors and friends during his sickness and by the throng of people who attended the funeral services.

Mr. Weaver was a thoughtful husband and father, always looking to the welfare of his wife and daughter, who are left to mourn. Jacob Weaver was born in Benton, Ind., June 17, 1844, and was married to Mary Jane Comer, November 7, 1869. In 1876 they moved to Hopkins, where they have since resided, making him one of the old residents of the town.

Mr. Weaver was a member of the Fraternal Mystic Circle, in which lodge he carried insurance.

The second death in Hopkins Saturday morning was that of James H. McGee, which occurred at 5 o'clock. Mr. McGee was alone in the world, having no relations in this part of the country. When it came to his sickness he had numerous friends who came into his home and cared for him until the end.

Mr. McGee, who was familiarly known as Mack McGee, was a character in the town, being noted for his peculiarities and his love for his dogs. He was also noted for his thoughtfulness toward the poor, many a family in years gone by having received his benefits without knowing where the help came from.

James H. McGee was born in Limerick, Ireland, December 1, 1820, and died in Hopkins, Mo., November 18, 1911, making him lack but a few months of being 92 years of age.

He came to America with his parents when a child of two and a half years. His parents located at Freehold, N. J., where a family of six children were reared, all now being dead, so far as known.

When yet a boy, James went to New York City and learned the plasterer's and brick mason's trades, faithfully serving an apprenticeship of five years, drawing the meager salary of $25 a year. A contractor who had taken a fancy to him advanced money, making it possible for him to live until he became a journeyman.

After learning these trades he located at Bushnell, Ill., where he was united in marriage in 1862 to Hester Ann Pierce. No children were born of this union, and the wife died in 1873. This cast a shadow over the life of the deceased, causing him to lose interest in life's work and duties.

He came to Hopkins thirty years ago and has lived the life of a recluse.

The funeral services were held Sunday at 12:30 o'clock. The Rev. A. P. Walton of the Presbyterian church read the 103rd Psalm and spoke in a very impressive manner of the deceased. Burial at the Hopkins semetery.

Mrs. W. D. Walker and son, John, living east of Maryville, went to Bolckow Saturday evening to visit Mrs. Walker's parents, Mr. and Mrs. G. W. Neely.

Dr. Anthony will go to Kansas City each Saturday evening and remain until Sunday evening with Mrs. Anthony until she is recovered. The report has gained circulation in some way that he intends leaving Maryville, probably because he has offered his residence for rent for the winter, but such is not the case. Mrs. Cunningham formerly lived in Tarkio, and used to often visit her mother in Maryville.

ONE YEAR TODAY

THE HUBBELL FAMILY KILLED AT BARNARD.

HEZ RASCO SENTENCED

To Be Hung for the Crime, Awaits Result of Appeal to Supreme Court, in Buchanan County Jail.

A year ago this date or on Sunday, evening, November 20, 1910, what is believed to have been one of the most fiendish and revolting murders in the history of Nodaway county occurred near Barnard. A whole family was wiped out of existence. Oda Hubbell, a young farmer about 29 years of age, his wife and two children, a little girl aged 6 and a son aged 4, were the victims. After killing the family the house was set on fire, apparently in hope of destroying all evidence of the crime. The house was totally destroyed.

Hez Rasco was arrested on the next day, charged with the crime and brought to Maryville, but after being here a few hours was taken to the Buchanan county jail in St. Joseph. The arrest of Rasco was made by Deputy Sheriff Evans.

Rasco was convicted of the crime last February and was sentenced to be hung. An appeal to the supreme court was taken and the case is set on the docket for hearing on January 2, 1912 and it is the belief that a decision will not be given for two or three months after. Should the supreme court affirm the decision of the circuit court then Rasco will be hanged for the crime of which he was convicted. If the case is reversed, then it will be tried over.

Rasco is now in the Buchanan county jail at St. Joseph, having been taken there by Sheriff Tilson several months ago. He seems to be cheerful and in fine spirits, and if he is worrying any his jailers have been unable to notice it.

Mrs. William Ramey of Arkoe spent Saturday in Maryville with her daughter, Miss Ruth Ramey, a State Normal student.

Miss Birde Shelton and Miss Mary Ogden visited over Sunday in Hopkins as the guests of Miss Sarah McMaster.

SOME MORE BASKET BALL.

Normals Won Easily From the Pickering Team.

An all-star aggregation of basket ball players composed of Normal students went to Pickering Saturday, where they met Prof. Somerville's high school quintet in mortal combat. Those who made the trip were Vernie and Harlie Seymour, Kirby Taylor, Dennis Parmon and Marry Mitchell. The local boys had no trouble in winning 21 to 9. The game was played on the school grounds, and considering the sloppy condition of the ground, no doubt the boys would have run up a much larger score if each man had been provided with a pair of snow shoes.

George Somerville, who is superintendent of the Pickering schools, is a regular summer attendant at the Normal.

DEATH OF LITTLE GIRL.

Nine-Year-Old Daughter of Mr. and Mrs. S. S. Miller Succumbs to Cerebro-Meningitis.

The funeral services will be held Tuesday afternoon at 2 o'clock at the family home. Burial will take place in Oak Hill cemetery, east of Maryville. The little girl is survived by several brothers and sisters. One sister, Mrs. R. L. Houghtaling, lives near Bolckow.

George L. Evans, former sheriff of Nodaway county, is now special agent for the Wabash for the division from Omaha to Moberly. Mr. Evans was in the city Sunday visiting his family, and left Monday for Brunswick, Mo., where he has some work to investigate.

Appointed Guardian.

J. F. Roelofson, public administrator, was appointed by Probate Judge Conn late Saturday afternoon as guardian of the person and estate of Mrs. Mattie Pixler, who was adjudged insane that afternoon by a jury in probate court. She will not be taken to the hospital at St. Joseph, but will be cared for at her home on First street.

BROAD MINDED JURIST.

Going to law should be the last resort for the adjustment of disputes. There is a judge in one of the district courts in Missouri whose example ought to be emulated by other members of the bench the country over.

In a recent damage suit cause which was brought before Judge Ellison, instead of trying the case, the judge administered a lecture to the defendant and complainant, who happened to be two competitive business men in the same town, and called their attention to the fact that it was a foolish expense for them to be engaged in litigation, and after more advice of the same nature, declared that he would not try the case, and if it were not compromised it would be thrown out of court. If we are right in our idea of the average court procedure, this would not have happened in one court out of twenty-five. There was ample excuse to continue this damage suit, and the average judge would have permitted the litigants to spend their money, and waste their time to their complete and ultimate discomfiture.

Judge Ellison probably by a thousand incidents, certainly by this one, has proven himself a broad-minded and progressive jurist.—St. Joseph Fruit Grower.

Taking the College to the Farm.

The newest thing in the line of agricultural training offered by the Missouri College of Agriculture is the branch short course. During the coming winter several branch short courses will be given at various points in the state. At each one the college of agriculture will furnish two men who will spend their entire time for five days in giving instruction in dairying, farm crops, soils, fruits, stock, poultry or farm ... In general the subjects taught will be suited to the special needs of the community.

Since the number of branch short courses must necessarily be limited they will be given to those localities which apply first and which show the greatest interest in the work. Here is a fine opportunity for men with push and enterprise to secure for their community a benefit that is offered this year for the first time in the history of Missouri.

Full particulars concerning the branch courses may be had by writing to F. B. Mumford, dean, Missouri College of Agriculture, Columbia, Mo.

A Demonstration of the Celebrated

Maish Cotton Down Comfortables

The Maish cotton down comfortables show the advance made in *the making* of comforts during the last few years. Maish comforts will not mat or pack down—they are thick and lofty, luxuriously warm and wonderfully light. There are none to compare with them at anything like the price.

The cotton in the Maish comforts is so twisted and curled that it forms a veritable network of minute springs, which, unless pressure is applied, are constantly expanded. This resiliency will last throughout the life of the comfort.

Maish comforts give warmth without weight. In the East Aisle, and in the show window, we display cross sections of this comfort showing the fine grade of cotton used and the manner in which it is made.

The Maish comforts come in three grades: Size 84 by 90 inches, the largest size comfort made, for $3.25. Size 72 by 84 inches for $3.50 and $4.00.

Other comforts in stock priced from $1.25 up.

HYDE JURY IS COMPLETED

AFTER SEVEN O'CLOCK AT NIGHT NAMES WERE KNOWN.

Members Excused by Challenge Jubilant at Their Release—Left Courtroom Shouting.

The Hyde Jury.

Fred Haussler, married, pressman.
George W. Palmer, married, cooper.
James N. McReynolds, married, railroad clerk.
S. S. Embry, married, farmer.
Eli J. Tracey, married, loborer.
Harry Waldron, married, dairyman.
G. Mort Gaugh, single, printing solicitor.
Sylvester J. Vaughn, married, stonemason
Charles B. Erickson, single, real estate salesman.
John H. Taylor, single, not employed at present.
Loring W. Craig, married, telephone wire chief.

Kansas City, Mo., Nov. 20.—To the conscience and judgement of the 12 foregoing men has been intrusted the fate of Dr. Bennett Clark Hyde in his second trial for the alleged murder by poison of Thomas H. Swope, philanthropist.

The jury was not determined until 7 o'clock at night. In the dimly lighted courtroom, crowded with spectators, the clerk of the court called the names of those who had been passed by both sides. Their faces grave, they took their places one by one in the jury box as their names were called.

Outside the courtroom could be heard the joyous yells of the members of the panel of 47 who had escaped by challenge.

Some of the jurymen could not restrain their joy when they learned they had been challenged. Their fees—almost $4,000 in all—already had been given them. With shouts and waving of hats, they left the courtroom. They could be heard a block away singing and cheering over their release.

Then the attention centered on the 12 who remained. Not one of the many who had followed the trial had picked the jury rightly. Many were surprised that the defense had left John H. Taylor and G. Mort Gaugh on the jury. Taylor, a former student at the Annapolis Naval academy, is an avowed friend of the prosecutor. His brother had worked in Mr. Conkling's law office. Gaugh was known to be a friend of J. A. Reed of the state counsel. They had been picked by nearly everyone as among the first to fall under the challenge of the defense. Mr. Walsh only *smiled* at the many who questioned him.

PLAN OF TOBACCO TRUST A FARCE

National Civic Federation Member Says Corporation Has Only "Changed Its Clothes."

Washington, Nov. 20.—"Congress should force the government to appeal from the decree in the American Tobacco company case," said Samuel Untermyer of New York, before the senatorial committee on interstate commerce. "The court should be forced to say whether the dissolution plan agreed upon is what it meant by an order of disintegration."

Mr. Untermyer said he understood the attorney general had been to some extent consulted in the formation of the plan of dissolution, but he believed the tobacco company had "done" the attorney general. He said the tobacco trust has simply "changed its clothes."

"The pitiful and humiliating fiasco in the American Tobacco company case has strengthened my belief that supplementary legislation is necessary for the enforcement of the Sherman anti-trust law," said Mr. Untermyr, who is chairman of the subcommittee on trust legislation of the National Civic Federation.

SUICIDE OVER BUSINESS DEAL

Missouri Woman Poisoned Herself and Tried to Kill Her Partner After Charging Theft.

Joplin, Mo., Nov. 20.—Martha McDade of Bradleyville, Mo., killed herself in Webb City by swallowing whisky in which she had placed 60 grains of strychnine. Mrs. McDade was recently divorced from her husband and received a few hundred dollars. Coming to Webb City on a business venture with J. H. Dumprobe of Pittsburg, Kan., where she had been staying, she swore out a warrant charging him with taking $500 from her. He was arrested in Joplin and placed in the Webb City jail. In the morning she appeared at the jail and after talking to him about the money offered him a drink of whisky. He tasted it and spat it out. She then drained the bottle and died.

GENERAL REYES UNDER ARREST

Taken in Custody at San Antonio for Violating Neutrality Laws.

AMERICAN TROOPS ON BORDER

Ten Others Arrested and Four Cases of Ammunition Siezed—Revolutionary Movement Expected Soon.

San Antonio, Tex., Nov. 20.—Gen. Bernardo Reyes of Mexico, who is alleged to have been leading a movement for the overthrow of President Madero, was arrested here by United States officers on an indictment returned at Laredo, charging him with violation of the neutrality laws.

Following the arrest of General Reyes, ten others were arrested on the Mexican side of the border. Four cases of ammunition were seized.

In speaking of his arrest General Reyes said:

"I consider it persecution, and the animus is not hard to find.

"If for no other reason than that my arrest will clarify my situation, I am glad it has come to pass. The culmination of the efforts of my enemies has come and I am ready to meet any accusation."

It was reported from an authentic source that General Reyes and his friends drew $50,000 in cash from a local bank and that they intended to use the money for what was said to be their intended hasty departure Mexico. This departnre is believed to have been forestalled by the general's arrest.

Activity noticed in railroad yards and offices, combined with a dispatch from Washington saying that all troops had been instructed to hold themselves in readiness for an immediate move toward the border, gives ground for the belief that another troop movement to protect the neutrality laws may be a matter of a day or two at most.

Agents of the department of justice and the American troops along the border have been ordered to watch closely for and prevent any violation of the neutrality laws. Gen. Duncan, commanding the department of Texas, has informed the department of various rumors of revolutionary activity.

El Paso and San Antonio appear to be the center of trouble just now, according to the information of the war department, the Mexicans in those places showing great unrest and signs of political activity. The war department has undertaken, through Gen. Duncan, to take care of any Mexicans found bearing arms, but is obliged to rely upon the department of juctice to unearth plots for smuggling weapons across the border.

Gen. Reyes waived an examining trial and his bond was fixed at $5,000 which he furnished with F. A. Chapc and Albert Kronkosky, both of San Antonio, as security.

WIDOW ON TRIAL FOR HER LIFE

Mrs. Gertrude Patterson, Who Shot Her Young Husband Expects Acquittal.

Denver, Colo., Nov. 20.—A beautiful woman, her wealthy admirer who bestowed gifts, and the young athlete whom she married for love and later shot, are the dramatis personae in the story that culminated today when Mrs. Gertrude Gibson Patterson was put on trial for her life. She is charged with murdering her husband, Charles A. Patterson, son of a well-known Chicago family. Emil W. Strouss, millionaire Chicago clothier and clubman, who, Mrs. Patterson says, "bought me for $1,500" from the husband, may or may not come here to testify.

Both the attorneys for Mrs. Patterson and Special Prosecutor Horace G. Benton made statements today declaring themselves confident. Mrs. Patterson reiterated her opinion that, when the whole truth is told, the jury will acquit her. She spoke in calm, subdued tones, but it was plain to see that she was agitated by mental strain. She looked several years older as the result of her two months' imprisonment in the county jail.

A New Harvester Combine.

Indianapolis, Ind., Nov. 20.—Formal notice of the merger of the M. Rumley company of Laporte, Ind., manufacturers of threshing machines and oil pull engines, with the Advance Threshing Machine company of Battle Creek, Mich., and the Gaar-Scott company of Richmond, Ind., was filed with the Indiana secretary of state. Capital stock of the merged company is $22,000,000. By combining the three plants the Rumley company is said to be the largest manufacturer of farm machinery in the country, with the exception of the International Harvester company.

LIFE IS GROWING LONGER

Present Rate of Increase Is Found to Be Greater Than Ever Before.

Life is not growing shorter, but Dr. O. H. Howe, a Massachusetts physician, finds that the world's statistics indicate a steady lengthening for 350 years, with a present rate of increase greater than ever before. Records for Geneva show an average increase in the average age of all deaths from 21.2 years in the sixteenth century to 39.7 years in the nineteenth. In Massachusetts life is now lengthening about fourteen years in a century, the average length at the time being about forty-five years; in Europe the increase per century is about seventeen years, and in Prussia, the land of medical discovery and its application, about twenty-seven years. In India, which has neglected medical science, the life span has remained stationary at only about twenty-five years. The lengthening of life in Massachusetts has been promoted by the diminution of infant mortality, by the almost complete disappearance of small-pox and by the lessening of the mortality from scarlet fever and especially from diphtheria to a small fraction of what it was a few years ago. Continued study of disease germs, of which the number has increased in twenty-five years from only two to between twenty and thirty now known, will further lengthen life. Modern conditions, however, partially offset the beneficent work of medicine, and Massachusetts statistics show five times as many deaths from heart disease in 1895 as in 1850, with Bright's dease and other kidney disorders and cancer more than doubled.

WAGES IN UNITED STATES

Large Proportion of American Workmen Unable to Maintain Efficient Standard of Living.

An estimate was made some time ago that a New York family consisting of a man, wife and three children under fourteen could maintain a normal standard of living on an annual income of $900. Then the question arose as to the number of families whose income equaled that sum.

Scott Nearing, the economic writer of the University of Pennsylvania, studied the question for many months and in a book, "Wages in the United States," which was published recently, he states the conclusion that a large proportion of American workmen are unable to maintain an efficient standard of living. Three-fourths of the adult men and nineteen-twentieths of the adult women, he says, actually earn less than $600 a year, or to give his conclusions more in detail, one-half of the men are earning less than $500 a year, three-fourths less than $600, nine-tenths less than $800, while less than ten per cent receive more than that figure. Of the women, one-fifth earn less than $200 annually, and three-fifths less than $325, while only one-twentieth earn more than $600.

To arrive at these figures Doctor Nearing takes up various state wage statistics. Massachusetts, New Jersey, Kansas, Michigan, New Hampshire, Rhode Island and Pennsylvania are considered, while special wage reports from Wisconsin and Illinois are included.

An Oregon Woman's Conscience.

Confessing that she had told a train ticket agent her child was under five years of age, when in fact she was over six years old, and under such pretence succeeded in securing free transportation for her, a woman appeared at a local Southern Pacific ticket office this morning and tendered the agent $3. She said the incident occurred about three years ago, and that she had since been troubled by her conscience.

"I do not think I could right myself with God until I had paid the debt," declared the woman as she hastened from the ticket office.

The woman refused to give her name. Southern Pacific officials here declare that today's donation is the first "conscience" money ever received at this office.—Roseburg correspondence Portland, Oregonian.

Prayer Halls in Russia.

In the villages of Russia the "prayer hall" is the common "izba" or cottage of a Stundist mujik, or a shed attached to a very primitive farmshed surrounded by prodigious quantities of mud, dust or snow, according to the season of the year. A separate building erected expreshly for worship among the rural evangelicals of Russia is a luxury yet to be provided in the great majority of cases. The meeting place, whether "izba" or outhouse, has walls of earth. It is without ceiling. The floor is the bare earth, trodden hard by many feet through the lapse of long years, and worn into lumps and hollows. The walls are lime washed and destitute of decoration or adornment. There are rough wooden benches around and across the room. The place is usually packed to suffocation with men, women and children, crowded on the seats, thronging the doorways, and huddling together on the top of the huge stove.—Sunday at Home.

QUARRELED OVER TREE

IT HAS COST 50,000 RUPEES AND A DOZEN LIVES.

Long Series of Feuds Between Two Bengal Estates Ended by Calcutta Business Man.

A certain mango tree, it appears, in growing up would not observe the boundary line between two Bengal estates and distributed its foliage and fruit impartially over both. As a consequence the owners of the estates have spent about 50,000 rupees in litigation, killed a dozen people and fought the bitterest armed fights.

During the bearing season the tree was productive of many mangoes. The first quarrel seems to have started among the women folks of the two families, who insisted that the mangoes belonged to one, then the other. They even resorted to picking the mangoes at night until one party happened to catch the other poaching. A fight followed in which, it is said, two were killed.

After this quiet reigned for some time, when the two principals met one day in a neighboring village and participated in a free-for-all fight over the innocent tree. They were separated in a bloody condition and were fined by the police. Then followed a long series of feuds and battles covering a period of many years, during which the tree yielded its luscious fruit to the one who happened to be cunning enough to pick it first. Finally both sides established armed guards around the tree and kept watch on each other night and day.

This went on with occasional fights for several years. It was a case of one trying to wear the other one out. Thousands of rupees were paid out for these special parties and fines, for burials of victims, court expenses and ammunition. It was not until just recently that a prominent business man of Calcutta was able to settle the dispute. He asked the two land owners to jointly deed the tree to him in return for many favors he had rendered both of them. This was finally done and he has caused a large cement circular wall to be erected about the tree, to which he has acquired full title and possession.

The quarrel has not only been expensive and fatal, but has kept a community in a constant state of hostility for many years. Any one traveling in eastern Bengal can easily hear the story and visit the scene of the feud, if sufficiently interested in the case. The gentleman whose strategy saved the situation desires that his name should remain unknown.—Calcutta Englishman.

WHY HAVE GRAY HAIR.

Sage and Sulphur Will Restore Gray and Faded Hair to Its Natural Color.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur today, and notice the difference after a few days' use.

This prepara[illegible] is offered to the public at fifty cents a [illegible]e, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

Buying Cattle in Kansas.

R. J. Bilby of Quitman, Mo., has been buying a good many cattle here this fall, and he is here now buying some more to take the place of 1,000 head he has been feeding several weeks. The most of the cattle he has bought recently were from the quarantine division, as the law now permits him to ship them into the clean district. "I will begin now to run out my fed cattle, and as fast as they go I will put others in to take their place," Mr. Bilby said. "My brother has 1,500 on feed, which he intends to handle about the same way. So far it has been a very favorable season to feed. I have been feeding corn, fodder and all with some cottonseed meal. Later I probably will feed straight corn and meal. The signs of the times point to higher prices on all fed cattle."—Kansas City Drovers' Journal.

Clairvoyant at Moberly Fleeced Three for $1,250.

BURGLAR TOOLS IN SUIT CASE

"Professor" Hill and One Accomplice Arrested—Third Man of Gang Escapes—Are Believed to Be Notorious Crooks.

Moberly, Mo., Nov. 20.—After an all-night hunt, Constable Sam Turner and a deputy arrested P. L. Stickney of Syracuse, N. Y., wanted for alleged connection with a swindling scheme by which three Moberly people were fleeced for more than $1,250. Two men, giving the names of Professor J. M. Hill and H. H. Austin, said to be Stickney's confederates, escaped, but Hill was captured later at Hannibal, Mo., and was brought back here.

Hill, who claims to be a clairvoyant, a few weeks ago rented a suite of rooms, did a thriving business and was visited by some of the wealthiest of Moberly's citizens. He spent money freely, giving suppers and box parties at the theater, and was what is popularly called "a mixer." Austin was an attendant at his "fortune telling" parlors.

Professor Hill was visited by Frank Heddinghause, a wealthy young German farmer, Eugene Icenhower, a Moberly liveryman, and J. A. Lucas, a Wabash brakeman to have their fortunes told. Hill proceeded to hypnotize himself and while in the "dream state" told the young men they were soon to become rich through investing in mining stock. Then the professor "came out" of his trance, according to the men, and casually mentioned as a side issue that he was selling stock for the Old Dominion Copper Mining Co., of Old Mexico.

His three visitors promptly fell for the bait and when they left carried with them $1,250 worth of "The Old Dominion Copper Mining Company's" stock. After his three victims departed with their certificates Hill withdrew $1,400, which he had deposited at a local bank. He then cashed his three checks, which netted him $1,250 more, and left but $25, which he said he would check out later.

At this juncture Stickney went to the Wabash station and purchased two tickets for alleged confederates who left the city at 10 o'clock. Stickney then went to the Merchants hotel and left a call with the clerk for one of the morning trains to St. Joseph. Later, however, he received a telephone message from Hannibal, and told the clerk to call him for the Hannibal train.

The police then wired to the Hannibal authorities and Hill was arrested, but Austin was not with him at the time and has not yet been apprehended. He has the money which the "professor" secured from his Moberly victims. He is believed to be headed for Chicago.

Stickney was then arrested by the Moberly police at his room in the Merchants' hotel. When the prisoner's suit case was opened it was found full of burglars' tools. The safe in Fowler & Reynolds' store in this city was blown open recently and loot to the amount of $781 taken by the robbers. The police are confident that in Stickney and Hill they have captured two of a trio of notorious crooks.

SHOT IN FUSS OVER ESTATE

CONSTABLE KILLS MAN ON STREET IN ROLLA, MO.

Trouble Started When One of the Heirs Attempted to Buy Out All the Others.

Rolla, Mo., Nov. 20.—Jesse W. Brown, constable of Rolla township, while he had in his custody Joe Cook, shot and killed Lum Riley, on the main business street of Rolla. The trouble first began in the division of the C. W. Riley estate in Marles county, of which Joe Cook and Lum Riley are both heirs. Cook, who is a nephew of Riley, had bought out several of the heirs in the Riley estate and was trying to buy two others. The action of Cook incensed Lum Riley very much and he not only threatened Cook but threatened his brother and sisters who had sold and were contemplating selling to Cook.

The Rileys came to Rolla to make their deeds to Cook. When Cook arrived in Rolla with his wife and they were tying their team in a wagon yard Riley rushed upon them and attacked them. A fierce fight ensued in which Cook cut Riley very badly about the neck and body. Riley was taken to a doctor's office where his wounds were dressed and Cook was arrested by Constable Brown. Riley declared he would kill Cook before he left town.

Immediately upon his leaving the doctor's office Riley saw Cook across the street and he rushed at him with his knife open. Cook jumped from the sidewalk and got out of his way. Riley followed, cutting and slashing at him when Constable Brown sprang between them, caught Riley and commanded him to stop. Riley threw his knife up in the air as though he was going to attack Brown and Brown shot and killed him.

Sparing the Rod.

The bishop of Carlisle, Eng., is no believer in "sparing the rod" and "spoiling the child." In a recent address he deplored "the soft notions now being preached by people calling themselves humanitarians." "It is said to be degrading to flog a boy," said the bishop. "Well, I am truly thankful that I was often degraded in that sense in my boyhood. If I had not been so degraded then I should be more degraded now. We need to eliminate these enervating, foolish, soft and therefore cruel notions from our educational system. This is a matter not only for teachers, but for parents."

DEATHS AT HOPKINS

JACOB WEAVER AND JAMES H. M'GEE DIED SATURDAY.

FUNERALS HELD SUNDAY

McGee, a Resident of Hopkins Thirty Years, Had Lived the Life of a Recluse.

The funeral services of Jacob Weaver, who died at his home in South Hopkins, Saturday morning at 3 o'clock, were held at the residence Sunday afternoon at 2:30, Rev. Griffith of the Baptist church officiating.

Mr. Weaver, or Jake, as he was known to all his friends, has been sick for the past two months. Part of the time his sufferings, brought on by a complication of diseases, have been intense, but have always been borne by that same cheerful spirit which has characterized him through life.

A laboring man in the humble walks of life, his cheerful words and kind deeds won for him a host of friends. For years, or as long as he was able to do the work, he was sent for to care and nurse the sick, and that this was appreciated was shown by the kindness of neighbors and friends during his sickness and by the throng of people who attended the funeral services.

Mr. Weaver was a thoughtful husband and father, always looking to the welfare of his wife and daughter, who are left to mourn. Jacob Weaver was born in Benton, Ind., June 17, 1844, and was married to Mary Jane Comer, November 7, 1869. In 1876 they moved to Hopkins, where they have since resided, making him one of the old residents of the town.

Mr. Weaver was a member of the Fraternal Mystic Circle, in which lodge he carried insurance.

The second death in Hopkins Saturday morning was that of James H. McGee, which occurred at 5 o'clock. Mr. McGee was alone in the world, having no relations in this part of the country. When it came to his sickness he had numerous friends who came into his home and cared for him until the end.

Mr. McGee, who was familiarly known as Mack McGee, was a character in the town, being noted for his peculiarities and his love for his dogs. He was also noted for his thoughtfulness toward the poor, many a family in years gone by having received his benefits without knowing where the help came from.

James H. McGee was born in Limerick, Ireland, December 1, 1820, and died in Hopkins, Mo., November 18, 1911, making him lack but a few months of being 92 years of age.

He came to America with his parents when a child of two and a half years. His parents located at Freehold, N. J., where a family of six children were reared, all now being dead, so far as known.

When yet a boy, James went to New York City and learned the plasterer's and brick mason's trades, faithfully serving an apprenticeship of five years, drawing the meager salary of $25 a year. A contractor who had taken a fancy to him advanced money, making it possible for him to live until he became a journeyman.

After learning these trades he located at Bushnell, Ill., where he was united in marriage in 1862 to Hester Ann Pierce. No children were born of this union, and the wife died in 1873. This cast a shadow over the life of the deceased, causing him to lose interest in life's work and duties.

He came to Hopkins thirty years ago and has lived the life of a recluse.

The funeral services were held Sunday at 12:30 o'clock. The Rev. A. P. Walton of the Presbyterian church read the 103rd Psalm and spoke in a very impressive manner of the deceased. Burial at the Hopkins semetery.

Mrs. W. D. Walker and son, John, living east of Maryville, went to Bolckow Saturday evening to visit Mrs. Walker's parents, Mr. and Mrs. G. W. Neely.

Mrs. Walter Coulter, Mrs. Walter Yeisley, Miss Mary Coulter, Mrs. John Grimes and daughter, Miss Sarah, of Arkoe were Maryville shoppers Saturday.

Dr. F. R. Anthony returned Sunday night from Kansas City, where he spent Sunday with Mrs. Anthony, who went to Kansas City a week ago to spend the winter with her parents, Mr. and Mrs. J. C. Mather, while regaining her strength from her recent severe sick spell.

Dr. Anthony will go to Kansas City each Saturday evening and remain until Sunday evening with Mrs. Anthony until she is recovered. The report has gained circulation in some way that he intends leaving Maryville, probably because he has offered his residence for rent for the winter, but such is not the case. He has received many phone inquiries from all over the county the past few days in regard to the matter, and he states that he has no thought of leaving Maryville.

Her brother and sister, Harman Fling of Millsap, Texas, and Mrs. Ruby Jones of Denver, Col., were with her at the time of her death. Mrs. Fling was unable to go to her. Mrs. Cunningham formerly lived in Tarkio, and used to often visit her mother in Maryville.

Came to Meet Relatives.

Miss Myra Hull of the Bolckow schools faculty spent Sunday with her parents, Mr. and Mrs. Herman W. Hull, living north of Maryville. Miss Hull came at this time to meet the relatives from Wisconsin who are guests at the home of her parents. They are Mr. and Mrs. C. W. Rose of Big Bend, Wis., who arrived Saturday night. Mrs. Rose is a sister of Mrs. Hull. They were accompanied to Maryville by Mrs. J. A. Stewart, an aunt of Mrs. Hull and Mrs. Rose, who makes her home with her Maryville niece. She had been visiting in Wisconsin for some time.

ONE YEAR TODAY

THE HUBBELL FAMILY KILLED AT BARNARD.

HEZ RASCO SENTENCED

To Be Hung for the Crime, Awaits Result of Appeal to Supreme Court, in Buchanan County Jail.

A year ago this date or on Sunday, evening, November 20, 1910, what is believed to have been one of the most fiendish and revolting murders in the history of Nodaway county occurred near Barnard. A whole family was wiped out of existence. Oda Hubbell, a young farmer about 29 years of age, his wife and two children, a little girl aged 6 and a son aged 4, were the victims. After killing the family the house was set on fire, apparently in hope of destroying all evidence of the crime. The house was totally destroyed.

Hez Rasco was arrested on the next day, charged with the crime and brought to Maryville, but after being here a few hours was taken to the Buchanan county jail in St. Joseph. The arrest of Rasco was made by Deputy Sheriff Evans.

Rasco was convicted of the crime last February and was sentenced to be hung. An appeal to the supreme court was taken and the case is set on the docket for hearing on January 2, 1912 and it is the belief that a decision will not be given for two or three months after. Should the supreme court affirm the decision of the circuit court then Rasco will be hanged for the crime of which he was convicted. If the case is reversed, then it will be tried over.

Rasco is now in the Buchanan county jail at St. Joseph, having been taken there by Sheriff Tilson several months ago. He seems to be cheerful and in fine spirits, and if he is worrying any his jailers have been unable to notice it.

Miss Birde Shelton and Miss Mary Ogden visited over Sunday in Hopkins as the guests of Miss Sarah McMaster.

SOME MORE BASKET BALL.

Normals Won Easily From the Pickering Team.

An all-star aggregation of basket ball players composed of Normal students went to Pickering Saturday, where they met Prof. Somerville's high school quintet in mortal combat. Those who made the trip were Vernie and Harlie Seymour, Kirby Taylor, Dennis Parmon and Marry Mitchell. The local boys had no trouble in winning 21 to 9. The game was played on the school grounds, and considering the sloppy condition of the ground, no doubt the boys would have run up a much larger score if each man had been provided with a pair of snow shoes.

George Somerville, who is superintendent of the Pickering schools, is a regular summer attendant at the Normal.

DEATH OF LITTLE GIRL.

Nine-Year-Old Daughter of Mr. and Mrs. S. S. Miller Succumbs to Cerebro-Meningitis.

BROAD MINDED JURIST.

Going to law should be the last resort for the adjustment of disputes. There is a judge in one of the district courts in Missouri whose example ought to be emulated by other members of the bench the country over.

In a recent damage suit cause which was brought before Judge Ellison, instead of trying the case, the judge administered a lecture to the defendant and complainant, who happened to be two competitive business men in the same town, and called their attention to the fact that it was a foolish expense for them to be engaged in litigation, and after more advice of the same nature, declared that he would not try the case, and if it were not compromised it would be thrown out of court. If we are right in our idea of the average court procedure, this would not have happened in one court out of twenty-five. There was ample excuse to continue this damage suit, and the average judge would have permitted the litigants to spend their money, and waste their time to their complete and ultimate discomfiture.

Judge Ellison probably by a thousand incidents, certainly by this one, has proven himself a broad-minded and progressive jurist.—St. Joseph Fruit Grower.

Taking the College to the Farm.

The newest thing in the line of agricultural training offered by the Missouri College of Agriculture is the branch short course. During the coming winter several branch short courses will be given at various points in the state. At each one the college of agriculture will furnish two men who will spend their entire time for five days in giving instruction in dairying, farm crops, soils, ... stock, poultry or fa... In general the subjects taught will be suited to the special needs of the community.

Since the number of branch short courses must necessarily be limited they will be given to those localities which apply first and which show the greatest interest in the work. Here is a fine opportunity for men with push and enterprise to secure for their community a benefit that is offered this year for the first time in the history of Missouri.

Full particulars concerning the branch courses may be had by writing to F. B. Mumford, dean, Missouri College of Agriculture, Columbia, Mo.

A Demonstration of the Celebrated Maish Cotton Down Comfortables

The Maish cotton down comfortables show the advance made in the making of comforts during the last few years. Maish comforts will not mat or pack down—they are thick and lofty, luxuriously warm and wonderfully light. There are none to compare with them at anything like the price.

The cotton in the Maish comforts is so twisted and curled that it forms a veritable network of minute springs, which, unless pressure is applied, are constantly expanded. This resiliency will last throughout the life of the comfort.

Maish comforts give warmth without weight. In the East Aisle, and in the show window, we display cross sections of this comfort showing the fine grade of cotton used and the manner in which it is made.

The Maish comforts come in three grades: Size 84 by 90 inches, the largest size comfort made, for $3.25. Size 72 by 84 inches for $3.50 and $4.00.

Other comforts in stock priced from $1.25 up.

HYDE JURY IS COMPLETED

AFTER SEVEN O'CLOCK AT NIGHT NAMES WERE KNOWN.

Members Excused by Challenge Jubilant at Their Release—Left Courtroom Shouting.

Kansas City, Mo., Nov. 20.—To the conscience and judgement of the 12 foregoing men has been intrusted the fate of Dr. Bennett Clark Hyde in his second trial for the alleged murder by poison of Thomas H. Swope, philanthropist.

The jury was not determined until 7 o'clock at night. In the dimly lighted courtroom, crowded with spectators, the clerk of the court called the names of those who had been passed by both sides. Their faces grave, they took their places one by one in the jury box as their names were called.

Outside the courtroom could be heard the joyous yells of the members of the panel of 47 who had escaped by challenge.

Some of the jurymen could not restrain their joy when they learned they had been challenged. Their fees—almost $4,000 in all—already had been given them. With shouts and waving of hats, they left the courtroom. They could be heard a block away singing and cheering over their release.

Then the attention centered on the 12 who remained. Not one of the many who had followed the trial had picked the jury rightly. Many were surprised that the defense had left John H. Taylor and G. Mort Gaugh on the jury. Taylor, a former student at the Annapolis Naval academy, is an avowed friend of the prosecutor. His brother had worked in Mr. Conkling's law office. Gaugh was known to be a friend of J. A. Reed of the state counsel. They had been picked by nearly everyone as among the first to fall under the challenge of the defense. Mr. Walsh only smiled at the many who questioned him.

PLAN OF TOBACCO TRUST A FARCE

National Civic Federation Member Says Corporation Has Only "Changed Its Clothes."

Washington, Nov. 20.—"Congress should force the government to appeal from the decree in the American Tobacco company case," said Samuel Untermyer of New York, before the senatorial committee on interstate commerce. "The court should be forced to say whether the dissolution plan agreed upon is what it meant by an order of disintegration."

Mr. Untermyer said he understood the attorney general had been to some extent consulted in the formation of the plan of dissolution, but he believed the tobacco company had "done" the attorney general. He said the tobacco trust has simply "changed its clothes."

"The pitiful and humiliating fiasco in the American Tobacco company case has strengthened my belief that supplementary legislation is necessary for the enforcement of the Sherman anti-trust law," said Mr. Untermyr, who is chairman of the subcommittee on trust legislation of the National Civic Federation.

In the morning she appeared at the jail and after talking to him about the money offered him a drink of whisky. He tasted it and spat it out. She then drained the bottle and died.

GENERAL REYES UNDER ARREST

Taken in Custody at San Antonio for Violating Neutrality Laws.

AMERICAN TROOPS ON BORDER

Ten Others Arrested and Four Cases of Ammunition Siezed—Revolutionary Movement Expected Soon.

San Antonio, Tex., Nov. 20.—Gen. Bernardo Reyes of Mexico, who is alleged to have been leading a movement for the overthrow of President Madero, was arrested here by United States officers on an indictment returned at Laredo, charging him with violation of the neutrality laws.

Following the arrest of General Reyes, ten others were arrested on the Mexican side of the border. Four cases of ammunition were seized.

In speaking of his arrest General Reyes said:

"I consider it persecution, and the animus is not hard to find.

"If for no other reason than that my arrest will clarify my situation, I am glad it has come to pass. The culmination of the efforts of my enemies has come and I am ready to meet any accusation."

It was reported from an authentic source that General Reyes and his friends drew $50,000 in cash from a local bank and that they intended to use the money for what was said to be their intended hasty departure Mexico. This departnre is believed to have been forestalled by the general's arrest.

Activity noticed in railroad yards and offices, combined with a dispatch from Washington saying that all troops had been instructed to hold themselves in readiness for an immediate move toward the border, gives ground for the belief that another troop movement to protect the neutrality laws may be a matter of a day or two at most.

Agents of the department of justice and the American troops along the border have been ordered to watch closely for and prevent any violation of the neutrality laws. Gen. Duncan, commanding the department of Texas, has informed the department of various rumors of revolutionary activity.

El Paso and San Antonio appear to be the center of trouble just now, according to the information of the war department, the Mexicans in those places showing great unrest and signs of political activity. The war department has undertaken, through Gen. Duncan, to take care of any Mexicans found bearing arms, but is obliged to rely upon the department of juctice to unearth plots for smuggling weapons across the border.

Gen. Reyes waived an examining trial and his bond was fixed at $5,000 which he furnished with F. A. Chapc and Albert Kronkosky, both of San Antonio, as security.

WIDOW ON TRIAL FOR HER LIFE

Mrs. Gertrude Patterson, Who Shot Her Young Husband Expects Acquittal.

Denver, Colo., Nov. 20.—A beautiful woman, her wealthy admirer who bestowed gifts, and the young athlete whom she married for love and later shot, are the dramatis personae in the story that culminated today when Mrs. Gertrude Gibson Patterson was put on trial for her life. She is charged with murdering her husband, Charles A. Patterson, son of a well-known Chicago family. Emil W. Strouss, millionaire Chicago clothier and clubman, who, Mrs. Patterson says, "bought me for $1,500" from the husband, may or may not come here to testify.

Both the attorneys for Mrs. Patterson and Special Prosecutor Horace G. Benton made statements today declaring themselves confident. Mrs. Patterson reiterated her opinion that, when the whole truth is told, the jury will acquit her. She spoke in calm, subdued tones, but it was plain to see that she was agitated by mental strain. She looked several years older as the result of her two months' imprisonment in the county jail.

A New Harvester Combine.

Indianapolis, Ind., Nov. 20.—Formal notice of the merger of the M. Rumley company of Laporte, Ind., manufacturers of threshing machines and oil pull engines, with the Advance Threshing Machine company of Battle Creek, Mich., and the Gaar-Scott company of Richmond, Ind., was filed with the Indiana secretary of state. Capital stock of the merged company is $22,000,000. By combining the three plants the Rumley company is said to be the largest manufacturer of farm machinery in the country, with the exception of the International Harvester company.

LIFE IS GROWING LONGER

Present Rate of Increase Is Found to Be Greater Than Ever Before.

Life is not growing shorter, but Dr. O. H. Howe, a Massachusetts physician, finds that the world's statistics indicate a steady lengthening for 350 years, with a present rate of increase greater than ever before. Records for Geneva show an average increase in the average age of all deaths from 21.2 years in the sixteenth century to 39.7 years in the nineteenth. In Massachusetts life is now lengthening about fourteen years in a century, the average length at the time being about forty-five years; in Europe the increase per century is about seventeen years, and in Prussia, the land of medical discovery and its application, about twenty-seven years. In India, which has neglected medical science, the life span has remained stationary at only about twenty-five years. The lengthening of life in Massachusetts has been promoted by the diminution of infant mortality, by the almost complete disappearance of small-pox and by the lessening of the mortality from scarlet fever and especially from diphtheria to a small fraction of what it was a few years ago. Continued study of disease germs, of which the number has increased in twenty-five years from only two to between twenty and thirty now known, will further lengthen life. Modern conditions, however, partially offset the beneficent work of medicine, and Massachusetts statistics show five times as many deaths from heart disease in 1895 as in 1850, with Bright's dease and other kidney disorders and cancer more than doubled.

WAGES IN UNITED STATES

Large Proportion of American Workmen Unable to Maintain Efficient Standard of Living.

An estimate was made some time ago that a New York family consisting of a man, wife and three children under fourteen could maintain a normal standard of living on an annual income of $900. Then the question arose as to the number of families whose income equaled that sum.

Scott Nearing, the economic writer of the University of Pennsylvania, studied the question for many months and in a book, "Wages in the United States," which was published recently, he states the conclusion that a large proportion of American workmen are unable to maintain an efficient standard of living. Three-fourths of the adult men and nineteen-twentieths of the adult women, he says, actually earn less than $600 a year, or to give his conclusions more in detail, one-half of the men are earning less than $500 a year, three-fourths less than $600, nine-tenths less than $800, while less than ten per cent receive more than that figure. Of the women, one-fifth earn less than $200 annually, and three-fifths less than $325, while only one-twentieth earn more than $600.

To arrive at these figures Doctor Nearing takes up various state wage statistics. Massachusetts, New Jersey, Kansas, Michigan, New Hampshire, Rhode Island and Pennsylvania are considered, while special wage reports from Wisconsin and Illinois are included.

An Oregon Woman's Conscience.

Confessing that she had told a train ticket agent her child was under five years of age, when in fact she was over six years old, and under such pretence succeeded in securing free transportation for her, a woman appeared at a local Southern Pacific ticket office this morning and tendered the agent $3. She said the incident occurred about three years ago, and that she had since been troubled by her conscience.

"I do not think I could right myself with God until I had paid the debt," declared the woman as she hastened from the ticket office.

The woman refused to give her name. Southern Pacific officials here declare that today's donation is the first "conscience" money ever received at this office.—Roseburg correspondence Portland, Oregonian.

Prayer Halls in Russia.

In the villages of Russia the "prayer hall" is the common "izba" or cottage of a Stundist mujik, or a shed attached to a very primitive farmshed surrounded by prodigious quantities of mud, dust or snow, according to the season of the year. A separate building erected expreshly for worship among the rural evangelicals of Russia is a luxury yet to be provided in the great majority of cases. The meeting place, whether "izba" or outhouse, has walls of earth. It is without ceiling. The floor is the bare earth, trodden hard by many feet through the lapse of long years, and worn into lumps and hollows. The walls are lime washed and destitute of decoration or adornment. There are rough wooden benches around and across the room. The place is usually packed to suffocation with men, women and children, crowded on the seats, thronging the doorways, and huddling together on the top of the huge stove.—Sunday at Home.

QUARRELED OVER TREE

IT HAS COST 50,000 RUPEES AND A DOZEN LIVES.

Long Series of Feuds Between Two Bengal Estates Ended by Calcutta Business Man.

A certain mango tree, it appears, in growing up would not observe the boundary line between two Bengal estates and distributed its foliage and fruit impartially over both. As a consequence the owners of the estates have spent about 50,000 rupees in litigation, killed a dozen people and fought the bitterest armed fights.

During the bearing season the tree was productive of many mangoes. The first quarrel seems to have started among the women folks of the two families, who insisted that the mangoes belonged to one, then the other. They even resorted to picking the mangoes at night until one party happened to catch the other poaching. A fight followed in which, it is said, two were killed.

After this quiet reigned for some time, when the two principals met one day in a neighboring village and participated in a free-for-all fight over the innocent tree. They were separated in a bloody condition and were fined by the police. Then followed a long series of feuds and battles covering a period of many years, during which the tree yielded its luscious fruit to the one who happened to be cunning enough to pick it first. Finally both sides established armed guards around the tree and kept watch on each other night and day.

This went on with occasional fights for several years. It was a case of one trying to wear the other one out. Thousands of rupees were paid out for these special parties and fines, for burials of victims, court expenses and ammunition. It was not until just recently that a prominent business man of Calcutta was able to settle the dispute. He asked the two land owners to jointly deed the tree to him in return for many favors he had rendered both of them. This was finally done and he has caused a large cement circular wall to be erected about the tree, to which he has acquired full title and possession.

The quarrel has not only been expensive and fatal, but has kept a community in a constant state of hostility for many years. Any one traveling in eastern Bengal can easily hear the story and visit the scene of the feud, if sufficiently interested in the case. The gentleman whose strategy saved the situation desires that his name should remain unknown.—Calcutta Englishman.

WHY HAVE GRAY HAIR.

Sage and Sulphur Will Restore Gray and Faded Hair to Its Natural Color.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur today, and notice the difference after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

Buying Cattle in Kansas.

R. J. Bilby of Quitman, Mo., has been buying a good many cattle here this fall, and he is here now buying some more to take the place of 1,000 head he has been feeding several weeks. The most of the cattle he has bought recently were from the quarantine division, as the law now permits him to ship them into the clean district. "I will begin now to run out my fed cattle, and as fast as they go I will put others in to take their place," Mr. Bilby said. "My brother has 1,500 on feed, which he intends to handle about the same way. So far it has been a very favorable season to feed. I have been feeding corn, fodder and all with some cottonseed meal. Later I probably will feed straight corn and meal. The signs of the times point to higher prices on all fed cattle."—Kansas City Drovers' Journal.

Clairvoyant at Moberly Fleeced Three for $1,250.

BURGLAR TOOLS IN SUIT CASE

"Professor" Hill and One Accomplice Arrested—Third Man of Gang Escapes—Are Believed to Be Notorious Crooks.

Moberly, Mo., Nov. 20.—After an all-night hunt, Constable Sam Turner and a deputy arrested P. L. Stickney of Syracuse, N. Y., wanted for alleged connection with a swindling scheme by which three Moberly people were fleeced for more than $1,250. Two men, giving the names of Professor J. M. Hill and H. H. Austin, said to be Stickney's confederates, escaped, but Hill was captured later at Hannibal, Mo., and was brought back here.

Hill, who claims to be a clairvoyant, a few weeks ago rented a suite of rooms, did a thriving business and was visited by some of the wealthiest of Moberly's citizens. He spent money freely, giving suppers and box parties at the theater, and was what is popularly called "a mixer." Austin was an attendant at his "fortune telling" parlors.

Professor Hill was visited by Frank Heddinghause, a wealthy young German farmer, Eugene Icenhower, a Moberly liveryman, and J. A. Lucas, a Wabash brakeman to have their fortunes told. Hill proceeded to hypnotize himself and while in the "dream state" told the young men they were soon to become rich through investing in mining stock. Then the professor "came out" of his trance, according to the men, and casually mentioned as a side issue that he was selling stock for the Old Dominion Copper Mining Co., of Old Mexico.

His three visitors promptly fell for the bait and when they left carried with them $1,250 worth of "The Old Dominion Copper Mining Company's" stock. After his three victims departed with their certificates Hill withdrew $1,400, which he had deposited at a local bank. He then cashed his three checks, which netted him $1,250 more, and left but $25, which he said he would check out later.

At this juncture Stickney went to the Wabash station and purchased two tickets for alleged confederates who left the city at 10 o'clock. Stickney then went to the Merchants hotel and left a call with the clerk for one of the morning trains to St. Joseph. Later, however, he received a telephone message from Hannibal, and told the clerk to call him for the Hannibal train.

The police then wired to the Hannibal authorities and Hill was arrested, but Austin was not with him at the time and has not yet been apprehended. He has the money which the "professor" secured from his Moberly victims. He is believed to be headed for Chicago.

Stickney was then arrested by the Moberly police at his room in the Merchants' hotel. When the prisoner's suit case was opened it was found full of burglars' tools. The safe in Fowler & Reynolds' store in this city was blown open recently and loot to the amount of $781 taken by the robbers. The police are confident that in Stickney and Hill they have captured two of a trio of notorious crooks.

SHOT IN FUSS OVER ESTATE

CONSTABLE KILLS MAN ON STREET IN ROLLA, MO.

Trouble Started When One of the Heirs Attempted to Buy Out All the Others.

Rolla, Mo., Nov. 20.—Jesse W. Brown, constable of Rolla township, while he had in his custody Joe Cook, shot and killed Lum Riley, on the main business street of Rolla. The trouble first began in the division of the C. W. Riley estate in Marles county, of which Joe Cook and Lum Riley are both heirs. Cook, who is a nephew of Riley, had bought out several of the heirs in the Riley estate and was trying to buy two others. The action of Cook incensed Lum Riley very much and he not only threatened Cook but threatened his brother and sisters who had sold and were contemplating selling to Cook.

The Rileys came to Rolla to make their deeds to Cook. When Cook arrived in Rolla with his wife and they were tying their team in a wagon yard Riley rushed upon them and attacked them. A fierce fight ensued in which Cook cut Riley very badly about the neck and body. Riley was taken to a doctor's office where his wounds were dressed and Cook was arrested by Constable Brown. Riley declared he would kill Cook before he left town.

Immediately upon his leaving the doctor's office Riley saw Cook across the street and he rushed at him with his knife open. Cook jumped from the sidewalk and got out of his way. Riley followed, cutting and slashing at him when Constable Brown sprang between them, caught Riley and commanded him to stop. Riley threw his knife up in the air as though he was going to attack Brown and Brown shot and killed him.

Sparing the Rod.

The bishop of Carlisle, Esq., is no believer in "sparing the rod" and "spoiling the child." In a recent address he deplored "the soft notions now being preached by people calling themselves humanitarians." "It is said to be degrading to flog a boy," said the bishop. "Well, I am truly thankful that I was often degraded in that sense in my boyhood. If I had not been so degraded then I should be more degraded now. We need to eliminate these enervating, foolish, soft and therefore cruel notions from our educational system. This is a matter not only for teachers, but for parents."

FRESH OYSTERS

Direct from the coast. They are large enough to fry, and don't you know a New York Oyster is lighter in color and a finer flavor than Baltimore stock. They come to us in five-gallon cans SEALED. No ice ever put in the Oysters. Compare our Oysters with others and you can see the difference. We sell the solid meat. NO WATER. A trial will convince you we are right on the Oyster question.
